WEST JAVA - INDONESIA

Company Profile

Description	: NusaRattana operates at the intersection of Cirebon's generations-old rattan-weaving heritage and a modern, export-ready furniture supply chain. Our artisans combine traditional hand-weaving techniques with engineered materials - natural rattan, synthetic fiber, and aluminum framing - to produce furniture built to withstand international shipping, varied climates, and sustained daily use. Rather than functioning solely as a catalog supplier, NusaRattana partners directly with buyers to develop custom designs, private-label collections, and indoor or outdoor furniture lines tailored to each client's specifications, while maintaining competitive pricing without compromising structural quality or finish. Our commitment to sustainability extends beyond material selection to responsible sourcing practices and fair treatment of the artisans within our production network. This combination of craftsmanship, manufacturing flexibility, and ethical sourcing positions NusaRattana as a long-term production partner for buyers seeking consistent quality and reliable supply.
