Jalan Raya Jatibarang-Balapulang KM. 7 No. 08 Ds. Semboja, Pagerbarang Kab. Tegal, Jawa Tengah, Indonesia. 52462, Kabupaten Tegal

CENTRAL JAVA - INDONESIA

Company Profile

Description

: About Us PT Mendala Khatulistiwa Energi is an Indonesian manufacturer and exporter of premium coconut charcoal briquettes. With full control over our raw material sourcing and production process, we are committed to delivering consistent quality, reliable supply, and long-term value to customers worldwide. Our strength lies in the integration of raw material management and briquette manufacturing. By securing sustainable sources of coconut shell charcoal and implementing strict quality control at every production stage, we ensure that every briquette meets international market standards. Through continuous research and product development, we have refined our production process to create coconut charcoal briquettes that offer long burning time, high heat output, low ash content, and clean combustion. These qualities make our briquettes ideal for shisha, hookah, and other premium applications. We believe that product quality begins with raw material quality. Therefore, we work closely with our sourcing network to maintain stable availability and consistent specifications throughout the year. This allows us to fulfill customer demand efficiently while maintaining the highest standards of production. Today, PT Mendala Khatulistiwa Energi proudly serves customers across international markets, providing premium coconut charcoal briquettes backed by professional service, dependable supply, and a commitment to sustainability. Vision To become a trusted global supplier of premium coconut charcoal briquettes by delivering consistent quality, sustainable solutions, and long-term value to customers worldwide. Mission - To produce high-quality coconut charcoal briquettes that meet international standards and customer expectations. - To maintain a stable and sustainable supply of raw materials through responsible sourcing and efficient management. - To continuously improve production technology and operational efficiency to enhance product performance. - To build strong and long-term partnerships with customers, suppliers, and business partners worldwide. - To promote environmentally responsible practices by supporting renewable and sustainable energy solutions. - To contribute to local economic growth through job creation, community empowerment, and responsible business development.
