Company Profile

Description	: Bentala believes stories can be told through scent. In a world that moves quickly, we create with intention - embracing the philosophy of slow perfumery, where every detail is considered, and every composition carries meaning. Our vision is to inspire every individual journey through fragrances. Each creation is crafted not only to be worn, but to be felt - an intimate companion for the milestones, the everyday, and the moments in between. This profound philosophy lies at the very core of the brand's essence. Bentala encourages individuals in modern society to be inspired to grow while remaining grounded. The name Bentala (ben.ta.la) comes from an ancient Indonesian language which means earth. As the name suggests, Indonesia is not just our origin —it is our inspiration. From volcanic mountains to ocean horizons, from earth after rain to sunlit coastlines, Bentala draws from the richness of the archipelago to create fragrances that feel both grounded and expansive. Each scent is a modern interpretation of place— refined, understated, and deeply evocative. An expression of Indonesia's soul, reimagined for the world.
