Company Profile

Description

: This company was founded on September 28, 2018 by Riyo with the aim of managing environmentally friendly waste. The basic idea behind it was to utilize waste materials that had rarely been developed by the community, and to enhance their value and benefits into creative and innovative products. The raw materials processed come from various types of hardwood, including roots, trunks, and branches of good quality. All of these materials can be further utilized and processed into a variety of unique handicraft products that carry both artistic value and functional benefits. The products produced include: accessories for pet cages, toys, kitchenware, and home decorations. In addition to producing goods, this business activity also contributes to empowering the surrounding community, providing opportunities for work and creativity, as well as creating a productive business ecosystem. With a production capacity of between 200–800 m3 per year, the company is able to supply handicraft and home décor products for both domestic and international markets, including through independent exports. VISION To transform natural resources and eco-friendly wood waste into handcrafted products that embody both artistic value and economic significance. MISSION To transform natural resources and eco-friendly wood waste into handcrafted products that embody both artistic value and economic significance. - To provide clean, efficient, and sustainable energy solutions. - To empower communities to remain productive. - To support both local and export markets with products that meet international quality standards.
