Company Profile

Description	: PT Mendala Khatulistiwa Energi has grown to become one of the leading briquette producers in Indonesia, not only focusing on production but also managing raw material sources independently. Through intensive research and development, our team has succeeded in producing the highest quality coconut charcoal briquettes. These briquettes are clean, efficient, and environmentally friendly combustion, making them an ideal energy solution for the community. By managing our raw materials independently, we can maintain product supply stability and ensure consistent quality. Our coconut plantations ensure a sustainable raw material supply, allowing us to reliably meet market demand. Throughout its journey, the company continues to innovate and develop superior briquette products. Thanks to our commitment to quality, efficiency, and environmental care, PT Mendala Khatulistiwa Energi is now one of the leading players in the briquette industry in Indonesia. We are proud to be part of the clean energy solution, producing high-quality and sustainable briquettes for a better future. Vision To become a leading briquette producer providing clean and sustainable energy solutions, supported by efficient and environmentally friendly raw material management. Mission We always maintain the quality and availability of briquettes from the best raw materials that are produced and processed by ourselves. Develop innovative and efficient production technologies and methods to enhance product performance and minimize environmental impact. Establish close partnerships with suppliers, partners, and other stakeholders to create a resilient and sustainable supply chain. Promote the use of clean and renewable energy through education and the promotion of environmentally friendly briquette products. Contribute to environmental sustainability by implementing responsible business practices, including the development of forests and plantations as sustainable raw material sources. Empower local communities by creating job opportunities and supporting the people's economy through community development programs.
